I am an openminded history and journalism graduate with the soul of an artist. I play flute and love music; I enjoy drawing, painting and I am interested in visual arts and design. Whilst living in Poland I've worked in a newspaper writing articles. I enjoyed writing since I remember and I hope that one day I will write a book. I am always looking towards improving myself and consider myself an ambitious and hardworking person, agile and quick to pick up new skills.

Work Experience

January- June 2016 (UK): Burnus Company Ltd

Advertising

Used my experience and skills as journalist to get the company better recognized. I've directed and edited a promo commercial which yielded an increase in purchases. Designed and wrote the content of leaflets and brochures that attracted new customers. Edited and kept the website content up to date. Brought the company into social media by creating and running Facebook and Instagram accounts. Promoted the company at UK's Concrete Show 2016 where I've talked with various onlookers and raised awareness of the company's products.

Sales

In charge of running the Amazon and Ebay accounts: I've created product listings and have been setting up promotions. I was also responsible for deliveries: from packing the parcels, arranging courier collections to making sure all deliveries were on time. This resulted in positive reviews from our customers and increase in sales.

International Deliveries

Facilitator for international clients on handling shipping of raw materials. Arranged collections and deliveries of transports going to/from our warehouse. Responsible for tending to all the details needed and making sure that transports were on time.

Front Desk Office

Arranged meetings with clients, handled phone calls and emails. Kept the office tidy, organised the paperwork and formatted electronic documents and files. As an archivist my skills were very useful in improving the company's collection of documents: cataloguing, arranging, storing, preserving and digitising.

June- August 2014 (Poland): Customer Advisor

Worked as a customer consultant in the Open Finance call centre. Dealt with financial issues such as credits, bonds and stocks. As a seller I learned how to persuade customers, build trust in our products and how to discuss customer's problems. Handled client complaints in a calm, peaceful way. Working in a team taught me how to cooperate with other people and function as a group, not only as a lone seller.

2013-2014 (Poland): Newspaper Reporter

During college I worked as a journalist in a widely known polish daily newspaper - Gazeta Wyborcza. I was writing paper issues as well as website articles. I was searching for new stories, taking interviews, doing researches, and in the end, cooperating with editorial office, to close the issue.

Many a times I was working under pressure and coping with tight deadlines. This taught me how to better organize and prioritize my time.

March- June 2014 (Poland): Radio Reporter Intern - Zlote Przeboje

The internship extended my journalism skills and taught me how to work with professional radio equipment. I was responsible for taking and recording interviews, attending press conferences, editing the material and making short news for the radio. I got quickly known as hardworking and thoughtful, thus earning my boss's trust and being assigned difficult tasks.

Other Experience

2015-2016	Sandwich artist in Subway Working in customer service, I learned to keep and follow food procedures, I was also running the shop by myself during morning shifts.
2013	Tv reporter in TVP Lublin (internship)
